## **Special Diet Statement**

## Why am I being asked to fill out this form?

Institutions or organizations who sponsor and operate a federally funded Child Nutrition Program must make reasonable substitutions to meals and/or snacks on a case-by-case basis for participants who are considered to have a disability that restricts their diet.\* According to the ADA Amendments Act, most physical and mental impairments that substantially limit or affect one or more major life activities or bodily functions will constitute a disability.

Sponsors <u>are not</u> required to accommodate special dietary requests that are not a disability. This includes requests related to religious or moral convictions or personal preference. **If these requests are accommodated, sponsors must ensure that all USDA meal pattern and nutrient requirements are met.** 

This form must be completed by a licensed physician, physician assistant, or an advanced practice registered nurse, such as a certified nurse practitioner. **Updates to this form are required only when a participant's needs change**.

Note to Districts/Schools: Parents/Guardians may provide a written request for lactose-free milk without a physician's signature. Lactose-free milk served must meet meal pattern requirements for the program.
